

I wanted to voice my opposition to giving LPFM stations priority over current FM translator services such as K-LOVE. We listen to 91.1, K-LOVE, everyday. It has been the only radio station that we listen to. K-LOVE benefits the community by providing family friendly radio, providing an alternative to secular musci, and by offering free advertising for events in the area put on by local churches and other Chritian organizations. After the 2004 Super Bowl it is all the more imperative to have access to T.V. and radio stations that will not jeopardize the innocence of our youth. K-LOVE is committed to providing positive music and encouraging words to our community. Don't let a positive influence be taken away.
